Canine Fitness and Nutrition Online Certification

Nutrition is an important part of the treatment for dogs and cats with heart disease. In the past, when few cardiac medications were available, restriction of salt in the diet was one of the major treatments for animals with congestive heart failure and little consideration was given to other dietary factors.

Browse All Pet Nutrition Articles - Clinical Nutrition ...

Dogs get ample correct nutrition from their natural, normal diet: wild and feral dogs can usually get all the nutrients needed from a diet of whole prey and raw meat. In addition, a human diet is not ideal for a dog: the concept of a "balanced" diet for a facultative carnivore like a dog is not the same as in an omnivorous human.

Dog Health - Wikipedia

first the bad: the nutrition aspect of this book a "really" lacking, while the author initially states that meat should be the base of any dogs meal, absolutely NONE of the recipes she includes have more than 30% meat (give or take), there is no mention of how to discern a good dry or canned food (if you want that try Dr. Pitcaim's books), and while I can understand her hesitation about raw ...
