- 1st Edition - Nicole ...

Concepts such as 'environmental security' and 'resource conflict' have been used to hint at these significant linkages. While there has been a good deal of scholarly work conducted that seeks to identify the ways that actors link these concepts, there has been little examination of the intersection between approaches to environmental security and gender.

Environmental Security and Gender | Taylor & Francis Group

This article will address the necessity of including gender into the approaches on the environment and security. The environmental security debate exhibits gendered understandings of both security and the environment. These gendered assumptions and understandings benefit particular people but are often detrimental to others.

Human, Gender and Environmental Security (HUGE) suggested a widened concept of security, which combines an ample gender concept, including children, elders, indigenous and other minorities with a human-centered focus on environmental security challenges, peace-building and gender equity.

Gender and Environmental Security: A Huge Challenge

In fact, evidence reveals that there is a correlation between environment and gender; when gender inequality is high, forest depletion, air pollution and other measures of environmental degradation are also high. But effectively engaging women is not just about avoiding negative consequences.

Not your Earth Mama: Ecological security and the gender-minority myth
Posted on October 3, 2016 by Marta Vivanco
A quick skim through the syllabus and my eyes went directly to this week's topic "Ecological Security and Feminist Environmental Security" as issues of gender have always been consciously tied to those of the earth and environment, I was interested ...

gender | Environmental Security

"If a key goal is to understand the human security aspects of security-environmental connections, then gender offers an important piece of the story. As the study of environmental politics has progressed, there has been increased attention paid to connections between environmental damage and race, class, and gender.
