Plans For Lutec Generator

Lutec. In 2001, John Christie and Lou Brits announced they had developed a self-running power supply that they thought they could bring to market within two years. Eleven years later, they seem to have disappeared. From the beginning, Robert Adams of New Zealand claimed they were simply using his designs and methods. The machine pictured below ...

Lutec | Free Energy

The Lutec 1000 generator will produce up to 1000 watts of DC electricity twenty four hours a day, every day, which will be stored in a battery bank and then inverted to AC power and connected directly into the home or business. The Lutec 1000 draws the power it requires to run itself from the same battery bank.
