Where Good Ideas Come From

The truth is, good ideas come from the clash of knowledge and speculation that occurs when people from different backgrounds get together and talk. The coffee shops of the Enlightenment provide a good example of this, but more recent instances of serendipitous conversations between people from medicine and electronics, to take just one example, lead to the innovations we take for granted today.

Where Good Ideas Come From: The Natural History of ...

Johnson describes where good ideas come from (hence the title) by breaking it down into 7 patterns: the adjacent possible, liquid networks, the slow hunch, serendipity, error, exaptation, platforms. Each chapter describes a pattern by starting out with an anecdote of some inventor x in city y in year z.
